

ENERGY FOUNDATION

building a new energy future

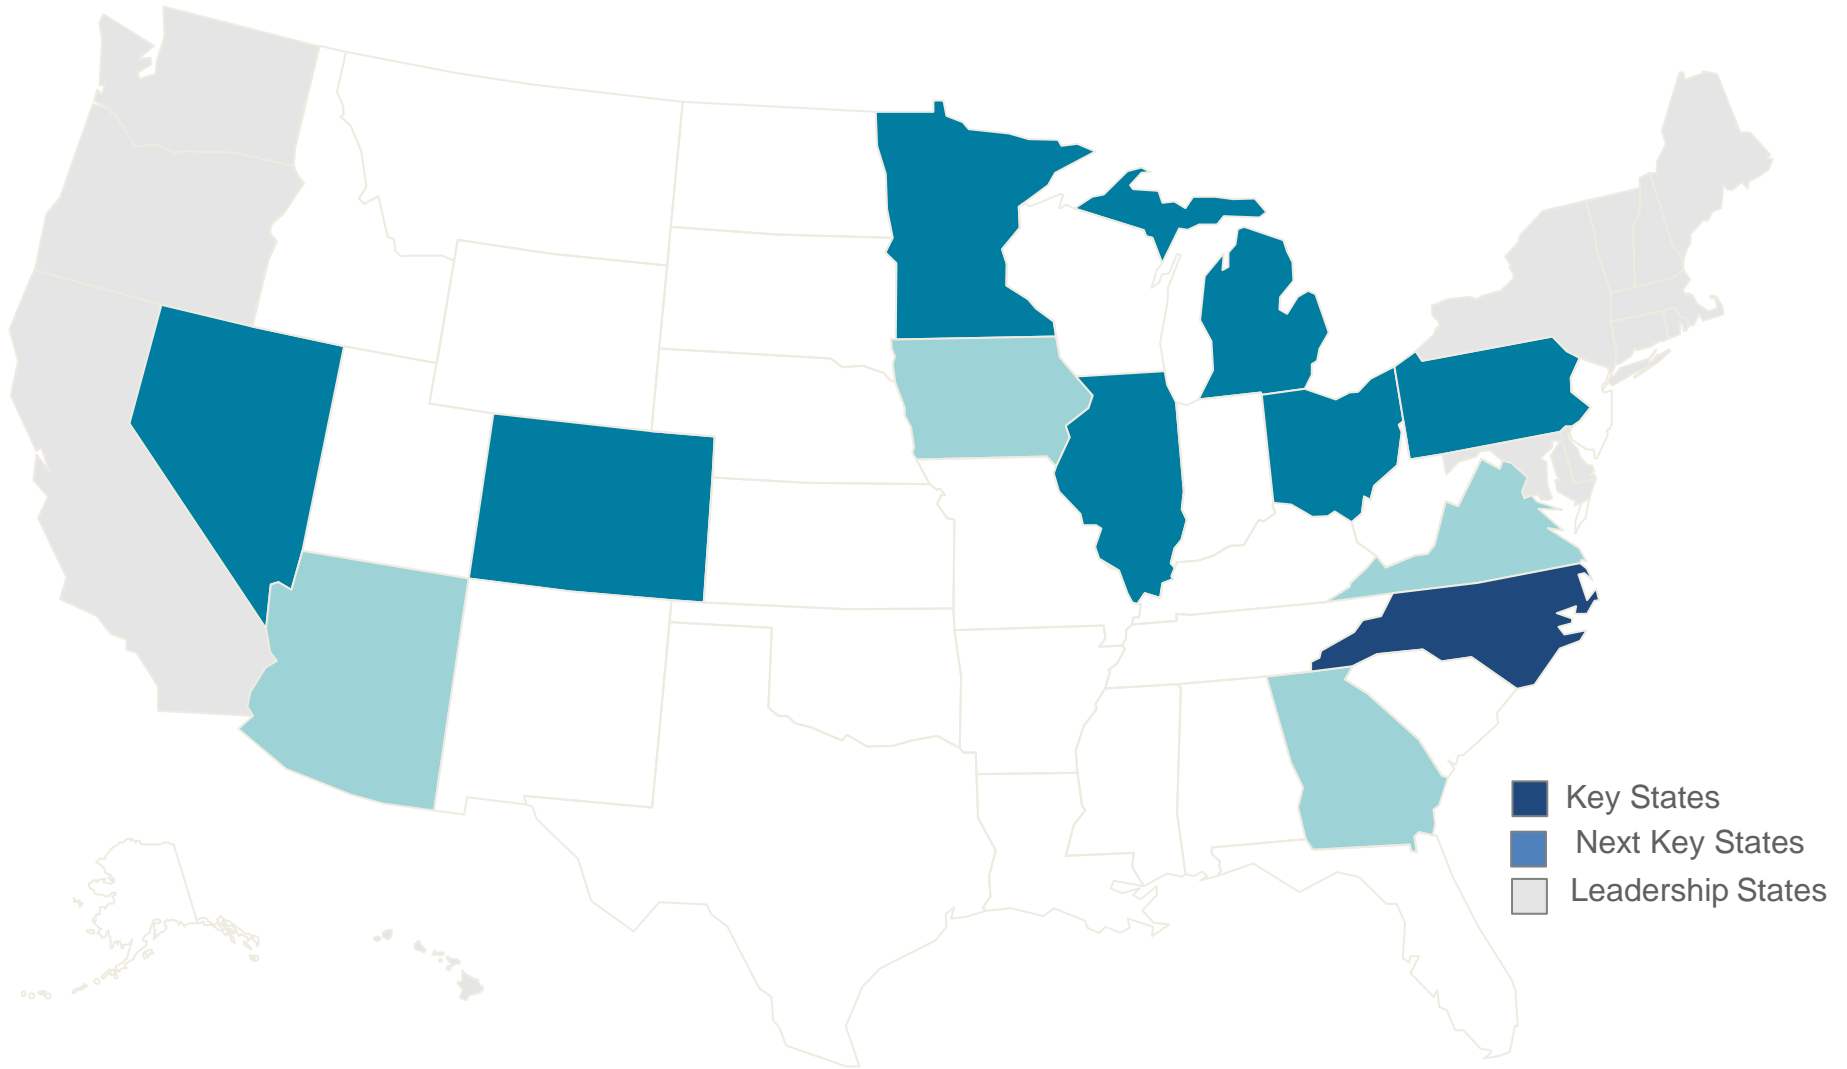

Our Mission, Our Goal, Our Role

Our Mission is to promote the transition to a sustainable energy future by advancing energy efficiency and renewable energy.

Our goal is to change the public narrative about clean energy and climate change by engaging with influential allies and communities from across the political spectrum

Our primary role is as a grantmaker, supporting groups to build the new energy economy. Our programs focus on making the buildings, power, and transportation sectors more efficient, and on advancing effective policies that open big markets for clean energy technology.
